Work Location	TRANSCAL Engineering	
Reports To (Line Manager)	Team Leader	

Your main purpose is	Working in a production environment, working in line to desired standards on the paint line.
-----------------------------	--

Key Responsibilities and Duties

SAFETY

- Safety must always be a prime consideration and you are required to ensure that the safety of people, the environment and our products are never compromised
- You have a responsibility under the Health & Safety at Work Act 1974 to take reasonable care of yourself and other persons that may be affected by your acts or omissions at work, secure the health, safety, and welfare of your colleagues at work and protect, so far as is reasonably practicable, all others against risks to their health or safety arising from your work activities and those of their staff and ensure that your duties are discharged adequately. The responsibility to achieve the duty cannot be delegated. The tasks required to discharge them can be delegated; assistance and support can be obtained; but the responsibility remains with you

DIMENSIONS

- Use drawings for the correct wet paint / powder specifications
- Use and understand thickness and gloss meter readings
- Mix paint to the correct measurements
- Able to organise production ready for spraying
- Move from one job to another with minimal supervision
- Understanding powder codes for different powders
- Knowing paint specifications and gloss and thickness levels
- Being able to work on own initiative
- Understanding the procedure of chemical tanks and which product goes into each tank
- Knowledge of which chemical needs to be used for each tank
- Jig up production correctly
- Use the overhead crane to carry out work only if authorised and trained to do so (in date operator's licence)

Qualifications

- Overhead Gantry Crane licence is desirable

Previous experience

ESSENTIAL

- Minimum 2 years' experience
- Understanding of COSHH
